PROFESSIONAL SUMMARY

Information Science undergraduate with strong foundations in Java, SQL, Object-Oriented Programming, Data Structures, Database Management Systems, REST APIs, and Software Engineering. Experienced in building full-stack applications and implementing backend services through academic projects.

SKILLS

- **Languages & Scripting:** Java, JavaScript, C,SQL
- **Backend:** Node.js,Express.js, RESTful APIs,JSON
- **Cloud & Databases:** AWS (EC2, S3), MySQL , MongoDB , SQL Queries , Database Design
- **Software Engineering:** Object-Oriented Programming (OOP), Data Structures & Algorithms , Database Management Systems (DBMS) , Git & Version Control , Debugging ,SDLC, API Testing (Postman) , Exception Handling

PROJECTS

- **ThejGPT : Conversational AI Web Platform** May 2026
 - Developed a scalable full-stack conversational AI platform using a modular client-server architecture with real-time prompt processing and persistent session management.
 - Designed RESTful APIs using Node.js and Express.js, integrating MongoDB for CRUD operations, API testing, debugging, and reliable backend communication.
 - **Tech Stack:** React.js, JavaScript (ES6+), Node.js, Express.js, MongoDB, Gemini API, REST APIs, HTML5, CSS3
- **VoxAI: Inclusive Voice-First E-Commerce Platform** Nov 2025
 - Developed modular backend services integrating Gemini API and Firebase to process multilingual user requests and manage application data efficiently.
 - Integrated Razorpay using secure REST APIs with exception handling, transaction validation, and backend debugging to ensure reliable payment processing.
 - **Tech Stack:** JavaScript, Gemini API, Firebase, REST APIs, Razorpay
- **SympCheck — Rural Healthcare Triage Companion** Sept 2025
 - Developed backend services using Python (Flask) and Microsoft Azure, implementing secure REST APIs for healthcare request processing.
 - Implemented patient request validation, API integration, and backend debugging to improve application reliability and maintainability.
 - **Tech Stack:** React Native, Python (Flask), JavaScript, Location APIs, Microsoft Azure

WORK EXPERIENCE

- **ExamDojo, Content Quality Analyst Intern (Freelance)** Remote, May 2025 – Apr 2026
 - Performed data validation and quality assurance of mathematical datasets and logical models, ensuring high accuracy and consistency across deliverables.
- Automated content generation and visualization workflows using Python (Matplotlib) and HTML, reducing manual effort and improving documentation quality.

EDUCATION

- **Bachelor of Engineering (Information Science)** Mangalore
 - Canara Engineering College (CGPA: 8.6)* 2023 – Present
- **Pre-University Education — PCMB** Udupi
 - Poorna Prajna PU College (Percentage: 86.3%)* 2020 – 2022

CERTIFICATIONS & HONORS

- **Programming in Java** — Earned certification from NPTEL, IIT Kharagpur, mastering object-oriented paradigms and data structures.
- **Microsoft Azure Learning Challenge** — Completed cloud infrastructure track focusing on core Azure administration and monitoring components.
- **Hackathon Finalist** — Selected among the top 35 teams out of 10,000+ participants in the AINNOVATION 2025 Hackathon by NMAMIT, Kyndryl & Microsoft.
- **C Programming** — Completed certification through IIT Bombay Spoken Tutorial, solidifying foundational memory management concepts.

LEADERSHIP & ACTIVITIES

- **AI Club Advisor**, Canara Engineering College 2024 — Present
 - Conducted technical workshops mentored junior students on AI and full-stack application development.
- **Vice President, Student Council**, Canara Engineering College 2025 — Present
 - Led cross-functional student teams and coordinated technical and cultural events involving 500+ participants.
